Re: Guidance Sheet #53 – Coronavirus Disease (COVID-19)
Date: May 11, 2020

Dashboard

Our Northline Utilities Emergency Operations Team feels that it is important to share an overview of the Northline Family as we monitor how COVID-19 is impacting our population.

Employees Tested for COVID-19	Employees with a Negative Test Result	Employees with COVID-19 Test Results Pending	Employees with a Positive Test Result
20	19	0	1

Our one Positive has recovered and is back at work.

Strategy Guidance

Handwashing: Making it a Family Activity

Handwashing is an easy, cheap, and effective way to prevent the spread of germs and keep kids and adults healthy. When your family is healthy, you don't have to worry about missing school, work, or other activities.

Help your child develop handwashing skills

Parents and caretakers play an important role in teaching children to wash their hands. Handwashing can become a lifelong healthy habit if you start teaching it at an early age. Teach kids the five easy steps for handwashing—wet, lather, scrub, rinse and dry—and the key times to wash hands, such as after using the bathroom or before eating. You can find ways to make it fun, like making up your own handwashing song or turning it into a game.

Give frequent reminders

Building handwashing skills takes time. At first, your child will need regular reminders of how and when to wash hands. It is especially important to remind children to wash their hands after using the bathroom, before eating, after touching pets, after playing outside, and after coughing, sneezing, or blowing their nose. But once handwashing becomes a habit and a regular part of your child's day, they will practice it throughout their lives.

Lead by example by washing your hands

Young children learn by imitating the behaviors of adults in their lives. When you make handwashing part of your routine, you're setting an example for your children to follow.

What if soap and water aren't available?

Washing hands with soap and water is the best way to get rid of germs. If soap and water are not available, use an alcohol-based hand sanitizer that has at least 60% alcohol, and wash your hands with soap and water as soon as you can.

Remember to make handwashing a healthy habit at home, school, and at play!

Follow Five Steps to Wash Your Hands the Right Way

Washing your hands is easy, and it's one of the most effective ways to prevent the spread of germs. Clean hands can stop germs from spreading from one person to another and throughout an entire community—from your home and workplace to childcare facilities and hospitals.

Follow these five steps every time.

1. **Wet** your hands with clean, running water (warm or cold), turn off the tap, and apply soap.
2. **Lather** your hands by rubbing them together with the soap. Lather the backs of your hands, between your fingers, and under your nails.
3. **Scrub** your hands for at least 20 seconds. Need a timer? Hum the "Happy Birthday" song from beginning to end twice.
4. **Rinse** your hands well under clean, running water.
5. **Dry** your hands using a clean towel or air dry them.

Daily Self-Checker

Please remember to keep using the Daily Self Checker. This Daily Self Checker is a list of questions that everyone should ask themselves every morning before work. If you answer "Yes" to any of these questions you should not go to work, and you should immediately reach out to the Emergency Operations Team Liaison Officer, Ricardo Aguilar by cell phone (518)-420-7078.

1. Have I recently traveled from a country/region with widespread sustained transmission of COVID-19?
2. Have I been in contact with someone who has recently traveled from a country/region with widespread sustained transmission of COVID-19 and is now sick?
3. Have I had contact with someone with lab confirmed COVID-19 in the last 14 days?
4. Have I been told by a Public Health Official that I may have been exposed to COVID-19?
5. Have I had any of the following symptoms in the last 14 days – fever greater than 100°F, cough, shortness of breath or difficulty breathing, chills, repeated shaking with chills, muscle pain, headache, sore throat, new loss of taste or smell?
6. Am I currently experiencing any of the above symptoms?

Notification

Remember, as part of our Northline Notification Protocol:

These are the reasons to contact Ricardo Aguilar (raguilar@northlinellc.com), Emergency Operations Team Liaison Officer:

- I went home with COVID-19 symptoms
- I stayed home sick with COVID-19 symptoms
- I was advised by a Health Care Provider to be tested
- I was made aware of someone else that has COVID-19 symptoms or stayed home
- I was asked to leave the jobsite by the customer due to a potential exposure
- I tested positive for COVID-19
- I encountered someone known to have tested positive for COVID-19, or
- I completed a trip to a CDC-categorized Coronavirus Warning Level 3 location

This notice must be directed to Ricardo Aguilar, Emergency Operations Team Liaison Officer at raguilar@northlinellc.com or by cell phone (518)-420-7078. The assigned Northline Project Manager will be notified and in turn the Project Owner, trade contractors and suppliers of the situation.

If you have any questions regarding this guidance, please do not hesitate to contact a member of the Emergency Operations Team. You are encouraged to send e-mails to Covid19EmOps@northlinellc.com or to specific individuals on the team.
